About Bison Gear & Engineering Corp.

For over 50 years, Bison Gear & Engineering Corp. has designed and manufactured fractional horsepower electric motors, gearmotors and gear reducers used in industrial and commercial OEM applications worldwide. Bison's strong engineering tradition, based on Robusticity™ principles, offers products with up to twice as much torque in the same package size as competitors. Bison's St. Charles, Illinois integrated production facility manufactures gearmotors and reducers in parallel shaft and right angle configurations, as well as AC, DC and brushless DC electric motors, for applications where dependability and long lifetimes are important.
