For Immediate Release

Bison's 3D CAD files now available on 3D PartStream.NET® & Bisongear.com

3D product CAD files of Bison Gear & Engineering's power transmission and motion control products are now available for immediate download from the Solidworks Corporation www.3DContentCentral.net website as well as Bisongear.com. This service uses the 3D PartStream.NET® software to allow design engineers to configure, view and download 3D models for use in their designs in wide range of CAD file formats. 3D PartStream helps reduce design costs, accelerates time to market, and ensures the accuracy of designs.

Supported CAD formats include AutoCAD®, Mechanical Desktop®, Autodesk Inventor® Series, Pro/ENGINEER®, CADKEY 3D, Solid Edge®, CATIA®, SolidWorks® 3D CAD, I-DEAS/Master Series®, Unigraphics®, IRONCAD®, Vellum Draft, Vellum 3D and Vellum Solids. In addition to 3D CAD formats, JPG, TIFF and PDF files are also downloadable along with several 2D CAD formats.

About Bison Gear & Engineering

Bison is a family-owned business that has been supplying gearmotors, reducers and motors for use in heavy-duty commercial products for more than 45 years. Bison standard gearmotors are available up to 3hp/2.2kw, in both U.S. and European Union frequencies and voltages. They include parallel shaft gearmotors, right angle gearmotors in single and double reduction versions, speed reducers, AC and DC motors, including inverter controlled and 3-phase models. Bison gearmotors typically produce more torque than other gearmotors in their physical size and price range. Industries such as, conveyors, icemaker-dispensers, food preparation equipment, food dispensers, hot melt dispensers, chemical mixers, door openers, automatic feeders, ventilation systems, exercise equipment, metal cutting equipment, packaging equipment, medical pumping and positioning equipment, battery powered vehicles, military applications, and much more are using Bison products.

For additional information on the full range of products that Bison offers please visit www.bisongear.com or contact a Sales Representative or Distribution Channel Partner located worldwide.

About SolidWorks Corporation

SolidWorks Corporation, a Dassault Systèmes S.A. (Nasdaq: DASTY, Euronext Paris: #13065, DSY.PA) company, develops and markets software for [mechanical design](#), [analysis](#), and [product data management](#). It is the #1 supplier of [3D mechanical design software](#) for the mainstream market. SolidWorks leads the market in number of users in production, customer satisfaction, and revenue. For the latest news, information, or a live online demonstration, visit the company's Web site (www.solidworks.com) or call 1-800-693-9000 (outside of North America, call +1-978-371-5000).
